

Centrifugal Barrel machine VKDT 30, Stock# 1224

Centrifugal Barrel Machine VKDT 30

The VKDT 30 is a compact heavy duty deburring and polishing machine. Small medical, aerospace, or automotive parts can be finished using multiple steps. These machines are also excellent in the 3D printing industry for improving surface Ra - to below Ra 30 (in multiple steps).

In a matter of minutes this deburr machine can clean up majority of the metal and metal alloys, hard plastics and other materials.

Upon payment is fully received, machine can be shipped within 24-48 hrs. For additional information and price, email to branko@massfin.ca or call Branko at 519 965 7034
