

## Round Vibratory Finishing machine VKO75 type Stock#121226

This VKO75L type of machine is commonly referred as "flat bottom" vibratory finishing machines with **round shaped** processing bowl channel. This type of machine ensure perfect submersion of the processed parts into media mass. Flat bottom machines are ideal for deburring, smoothing and polishing of medium size and small and delicate parts. Finished parts are taken out manually. VKO machines are offered with sound protection cover, VFD, dosing pump, undersize media classification (external), media unload plug, single or multiple drains. Reversing of the rotation direction brings parts on the top for easy manual removal.

Upon payment is fully received, machine can be shipped within 24-48 hrs. For additional information and price, email to [branko@massfin.ca](mailto:branko@massfin.ca) or call Branko at 519 965 7034
